Current rates will continue until December 31, 2019. For most customers, rates may increase 35-45% on January 1, 2020.

The amount of the increase will vary depending upon the amount of garbage service subscribed to.

Proper sorting makes a difference!

Most customers can minimize garbage bills by recycling. Proper use of **recyclables** and **organics** containers may decrease the amount of garbage service needed.
